-10/10. Fun & beatiful game!

Clever puzzles with a chilled out atmistpher and music

A must play game. Simply broken to where completion is unachievable. Pillar is a game that requires some mental gymnastics to understand the story. Each level deals with a different emotion but each two levels deal with the emotions and people involved in tandem. It's a very cool concept and I enjoyed playing it.. Simply broken to where completion is unachievable. I received this game for free.

Short game with puzzles of sorts.

Hand drawn graphics are nice but going through the puzzles I lost track of the story anyways.

It couldn't keep my interest to go through all the characters.. Great little puzzle game, the puzzle do require a bit of thinking but are not too challenging. A great balance which can be hard to find sometimes.

The lack of instructions are thankfully not a hinderance, it is pretty intitve on how to move your characters. Nice music and art, give you the feeling of being a alone in an empty world.. Upon revisiting this game, it's actually pretty cool and deeper than I realized.

Original Review: I found the story to be very confusing and hard to follow. Worse, it seemed to have nothing to do with the actual puzzles.. Upon revisiting this game, it's actually pretty cool and deeper than I realized.

Simply broken to where completion is unachievable. Pillar is an interesting game. It's primarily a puzzle game, but it's also a pretty emotional game, since the puzzles are conveyed via a personality, with personality flaws being a major aspect. For example, the "Distant" personality puzzle is to advance through areas while trying to avoid human interaction. You're given tools to accomplish that, but part of the fun is figuring those out so I won't explain anything. When Distant experiences human interaction, the game definitely conveys that it's agony, at least, that was my interpretation. You don't necessarily "lose" if you fail, but if you want to collect all the notes you should try everything.

But again, the core is the puzzles. Some of them are REALLY hard, and once again, you're free to skip right past them, but you won't 100% the game then. Some of the puzzles I spent 30+ min on and still didn't solve, and had to try again another day. A lot of the puzzles are pretty genius from a design perspective.

One more thing, the music is outstanding. I enjoyed Pillar overall.. Having finished this game I don't understand why this game is actually unpopular and I don't understand the mixed feelings, I find it special! Thing I both loved & hated: I were sometimes like: "Should I really do this, should I really do that to proceed on my journey and to collect the notes I miss?" I had something in mind, but wasn't sure if it would bring me further....but it did. Avoid being clueless, try things that feel right and you'll get there, not wasting, but investing time necessary! Continue with some patience.

8/10. thank you, for this amazing game, Michael \u2665. Fun & beautiful game!
